

# **BPB RESOURCES**

Note: Affiliate links are used where possible. We only recommend products and services we use in our businesses, lives, and our client's businesses (which has been responsible for billions sold online). In many cases, we've been able to negotiate discounts or bonuses for you that you can't get anywhere else because we want to help you build effective businesses. If a link stops working, please let us know right away so we can fix it. This list is updated often and you will receive an email about significant updates.
